

Ritesh Rajani - Diversity Engagement Partner, IBM

Ritesh Rajani is a diversity and inclusion champion with a thirteen-year background expertise in software development in the domains of IoT and Analytics. Ritesh moved to a full time HR role focusing on Diversity and Inclusion, in a quest to make IBM and the world a more equitable place for everyone. In his current role, Ritesh works across the spectrum of inclusion at IBM, with priorities around empowering Women, People with Disabilities, people who are LGBT+ (Lesbian Gay Bisexual Transgender+) and also enabling Work-life integration. Ritesh has a master's in computer science, and holds a US Patent for an invention in the field of Radio Frequency Identification.
